

I am deeply disturbed that Sinclair Broadcasting will be playing an anti-Kerry propaganda film on all of their networks--aren't there laws against doing this without at least allowing equal time for rebuttal? This is a blantant attempt to use corporate power to undermine democracy at it's very heart. It is sickening to think that the FCC would allow this to happen.

Please stop Sinclair from doing this and getting away with it. If they do suceed in airing these broadcasts, please do not renew their license. They are misusing our public airwaves and no longer deserve access to them.

Respectfully submitted,
